

BS014 Installation Instruction

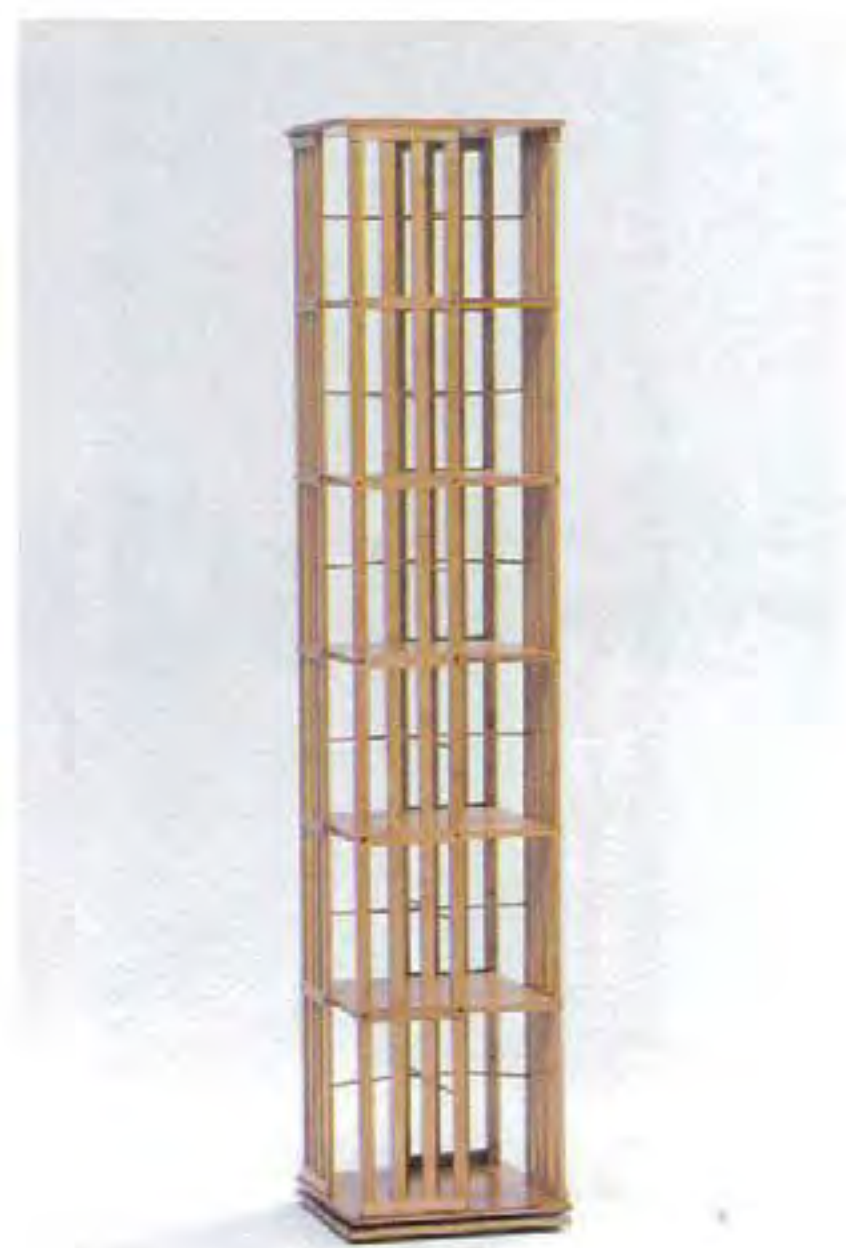

Please be sure to use a manual screwdriver and refrain from using an electric drill.

Simple composition (take 6 layers as an example)

installation tips

- ① Please read the instruction manual carefully to understand the precautions during product installation and maintenance.
 - ② Strictly follow this assembly instruction manual to operate.
 - ③ Check carefully whether the parts in the box are complete.
 - ④ Assemble on the packaging box to avoid damaging the product and room floor.
 - ⑤ Only use a rag or slightly damp cloth to clean the surface of the product. Do not use strong scrubbing.
- ⚠ Using mismatched accessories may cause product damage. Please confirm the models of various accessories before assembly.

final effect

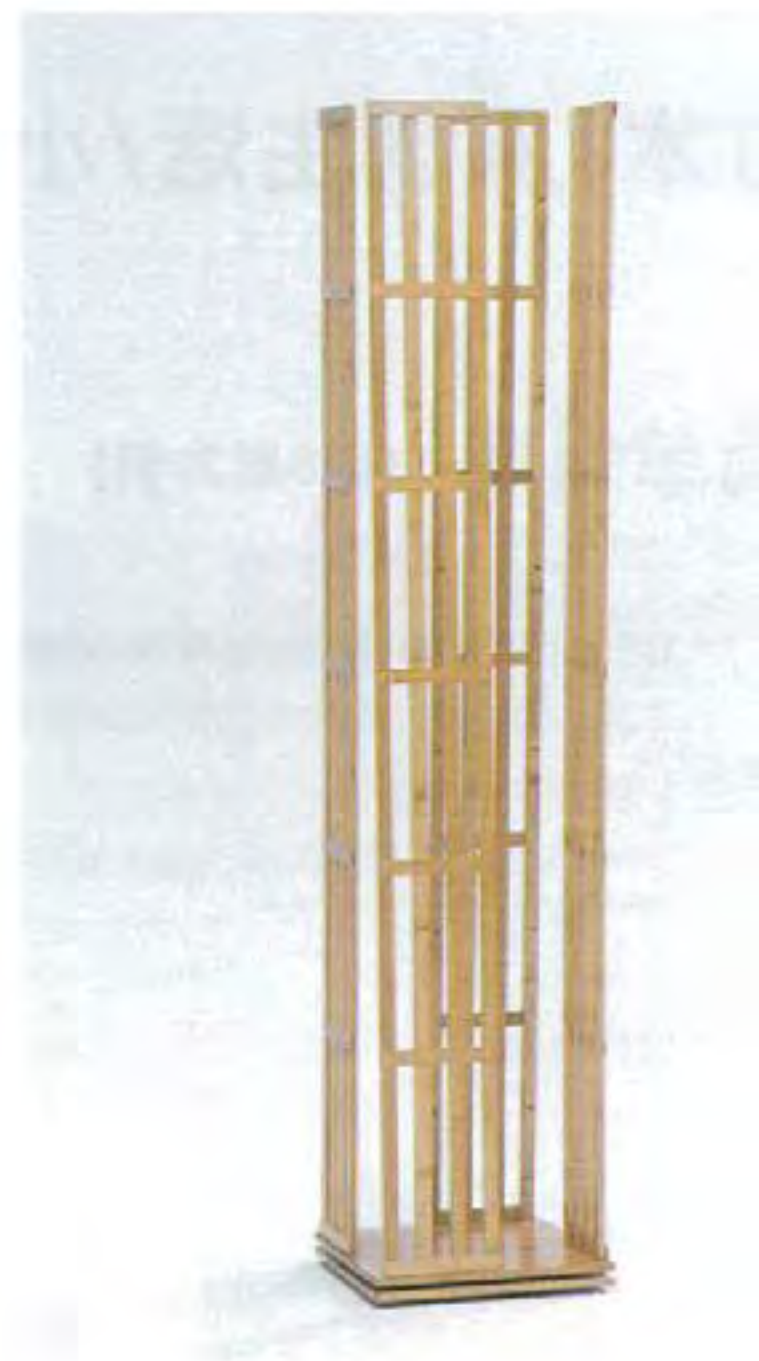

Start assembling

Take out the foot pads and place them on the four corner holes. Place spacers inside the foot pads.

The screws need to be installed through the large holes at the bottom

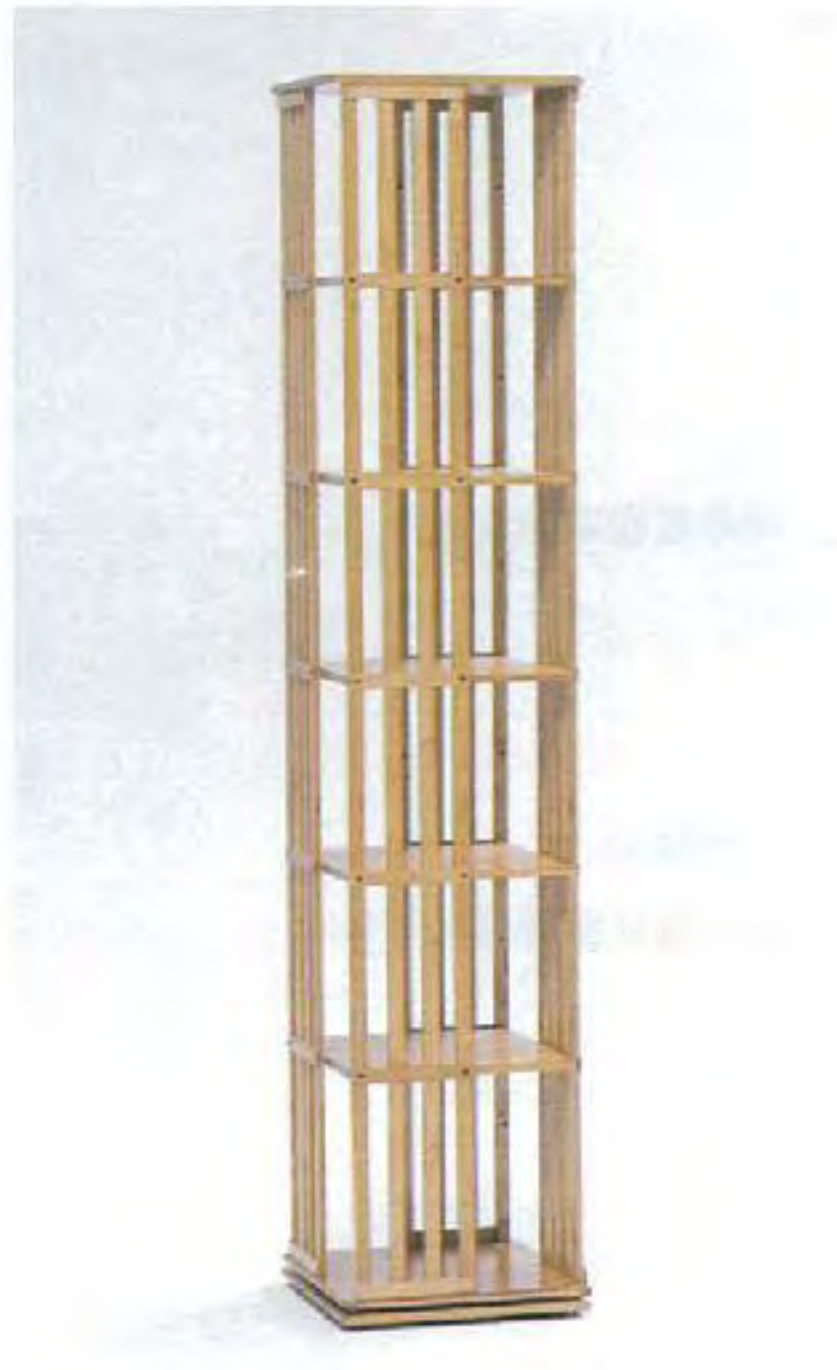

① Take out the base, foot pads and gaskets, and install them on the back of the bottom shelf with small screws

② Take out the side bracket and install the bottom with large screws on the front of the bottom shelf (the big hole of the side bracket faces outward)

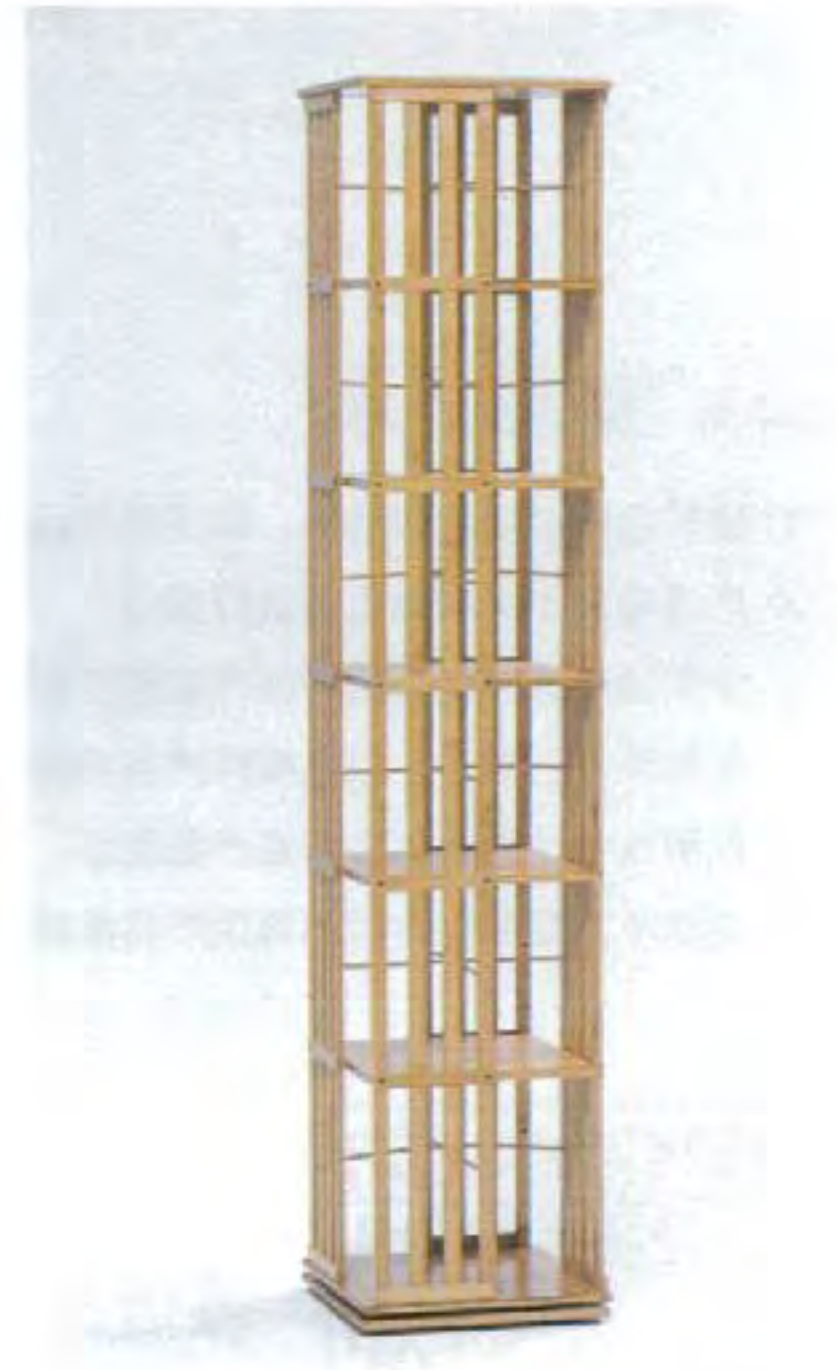

③ Install the 4 side brackets

④ Take out the ordinary shelf and install it with large screws (the ordinary shelf has small holes facing downwards)

⑤ Take out the top shelf and install it with large screws

⑥ Finally, take out the spacers and insert them into the holes of the bracket one by one.
